Speaker and Q&A Event*

Lean Startup Methodology in Clean Tech

Interested in Energy Startups or Clean Technology?

Join us to hear Professor Mark Werwath speak on his work in lean startup methodology in the Clean Tech sector. Professor Werwath is the Director of the Master in Engineering Management program at Northwestern's McCormick School of Engineering and has a rich background in new product development. See you soon!

This is a free event, but please RSVP via YPE website.
